Our Model

Ean a 26-year-old CHC alumni, completed a certificate in Nursing in 2023.

He lost his father but was luckily profiled into the CHC sponsorship program.

After school, Murole CarePoint aided him with a start-up capital of \$195 to start a drug shop in Wakiso.

Through diligent service, he always had customers and grew his operating capital to \$1,388 so he decided to start two new drug shops within the same district and now has a total operating capital of \$4,167.

Ean is now an employer and can support his livelihood and his widowed mother too.
